

# SISTEMI PER DIVISIONE AMBIENTI

# NOTE GENERALI

## Dimensioni

- Le misure sono in mm, tranne dove indicate.
- Max. Kg è relativo al peso tessuto (accessori inclusi).
- Lo spazio di impacchettamento dipende dal tipo di confezione della tenda e dallo spessore del tessuto.
- Distanza tra gli scivoli a pattino max. 80 mm / tra gli scivoli a rullo max. 100 mm.
- Distanza del tessuto dal pavimento consigliata: 20 mm.
- Per determinare l'altezza del sistema (B), considerare l'altezza minore rilevata.

## Installazione

- Installazione solo a cura di personale qualificato.
- Il numero dei punti di fissaggio e il loro posizionamento sono determinati soprattutto dalla superficie di installazione, dalla confezione del tessuto, e da eventuali ostacoli nella corsa.
- Il personale qualificato deve utilizzare viti e sistemi di fissaggio adeguati ad ogni situazione.
- Lo scalino superiore del profilo va sempre rivolto verso l'interno stanza.

## Child Safety

- Tutti i sistemi Silent Gliss rispettano la norma EN 13120.
- Tutte le parti utilizzate rispettano la norma EN 13120.
